ZAID KAMEL ALZUBI

Computer Science Student | Aspiring Software / Full-Stack Developer
Amman, Jordan | +962 7 9095 3343 | Zaidalzu3bi@outlook.com | Date of Birth : 15 March 2004 | LinkedIn Profile

PROFESSIONAL SUMMARY

Senior Computer Science student at Al-Ahliyya Amman University (AAU) with hands-on experience in web application development (ASP.NET MVC), Python programming, data analysis with Power BI, and cybersecurity fundamentals through national-level CTF training. Contributed to a team-based ERP implementation project applying Waterfall/PMI project management methodology. Currently expanding full-stack development skills (ASP.NET & Angular) and cloud computing knowledge (Microsoft Azure Fundamentals). Seeking an entry-level opportunity to apply strong technical foundations and a fast learning ability in a professional software development environment.

EDUCATION

Al-Ahliyya Amman University (AAU) — Amman, Jordan
Bachelor of Science in Computer Science | 2023-2027

CERTIFICATIONS & TRAINING

- Microsoft Azure Fundamentals (AZ-900) — In Progress
- Full Stack Web Development – ASP.NET & Angular — Princess Sumaya University for Technology (PSUT), 130 training hours, In Progress (started 28/09/2026)
- Microsoft Power BI Data Analysis — Career Guidance and Alumni Office / King Abdullah II Fund for Development, AAU, 12 training hours (Jul 2025)
- Programming in Python Language — Career Guidance and Alumni Office / King Abdullah II Fund for Development, AAU, 25 training hours (Dec 2024 – Jan 2025)
- ASP.NET (MVC) — Certificate of Attendance & Certificate of Experience, The Hope International Company, 40 training hours (Jul 2024 – Sep 2024)
- Cyber Warriors Training (CTF Training) for University Students — National Cyber Security Center of Jordan (NCSC), 40 training hours over 8 days, 2024

PROJECTS

University ERP Implementation — Software Project Management Course *Nov 2025*
Team Project (5 members) | Waterfall Methodology & PMI Standards

- Planned and documented a simulated end-to-end ERP implementation for a university, integrating five modules: Student Information (SIS), Finance & Accounting, HR, Procurement & Inventory, and Quality Assurance, with a simulated budget of $150,000 over a 12-week timeline.
- Developed core project management deliverables including the Work Breakdown Structure (WBS), Gantt chart, network diagram, resource sheet, cost baseline, risk register, and impact matrix in line with PMI standards.
- Produced a Requirements Document (SRS), System Design Report, Test Plan, and UAT Report, and tracked project performance using Earned Value Management (EVM) metrics.

TECHNICAL SKILLS

- Web Development: ASP.NET (MVC), Angular (in progress), HTML/CSS fundamentals
- Programming Languages: C#, Java, Python, JavaScript
- Data & Analytics: Microsoft Power BI
- Cloud Computing: Microsoft Azure Fundamentals (in progress)
- Cybersecurity: CTF (Capture the Flag) fundamentals, security awareness
- Project Management: Waterfall methodology, PMI standards, WBS, Gantt charts, risk management
- Tools: Microsoft Project, Microsoft Office Suite, Git/GitHub
